

March 21, 2022

Thank you to all stakeholders who completed our mask preferences survey and provided feedback. We greatly appreciate and value your opinions.

After reviewing responses from stakeholders, clients, employees, and reviewing all current CDC recommendations; we have decided to keep indoor mask requirements at this time.

However, we are going to discontinue the following safety requirements listed below. We will continue to monitor and may reinstate the requirements in the future as the pandemic changes.

The following safety measures are no longer required for clients and employees:

- Social/physical distancing
- Daily attestation forms
- Temperature checks
- Daily contact tracing forms (facility-based staff)

We want our employees to remember that clean air and filtration are of the utmost importance to avoid the spread of Covid. If you are providing services in a MDS clinic/office setting, make sure to ensure to the air filtration machines are turned on at all times. If you are community-based staff, ventilate when you are able.

It is our intention to continue to monitor changes and guidance that evolves in the coming months. If you have any questions or concerns, please reach out to your staff member or the MDS main office at 317-858-8630.
